Editorial

*Achieve your goals, do it in an excellent atmosphere,
and live an enriching and unforgettable experience.*

Marc Lavigne Delville
School Director

Our French language school, based in Montpellier in the South of France, has the pleasure of welcoming every year about 3,000 international students who come from 80 different countries for very specific objectives. 96% of our students say they are very satisfied with their language stay. So much so that many of them decide either to extend their stay or to come back.

What distinguishes LSF Montpellier can be summarized in 3 points:

Pedagogical performance, user-friendliness and a full-on experience.

1 **Pedagogy and learning performance.** This is our top priority. Our main commitment is to enable all our students to achieve their goals. To progress in French and reach their target level. Why is that? Because many of our learners need it for university, for professional or for personal projects. Some of them are going to join a French higher education school (university, business or engineering school). Others will join a French company, or will settle in France or in a French-speaking country.

2 **Friendliness and kindness.** This is our second priority. We always assume that, in order for students to learn correctly, two essential conditions must be met:
1. To have teachers who deeply love their profession, who practice it with excellence, and who do so in the best possible conditions. **2. To have motivated learners.** When you engage in learning a foreign language, you have to put all the chances on your side. To teach well and to learn well, you have to feel good!
Also, LSF makes every effort to ensure a very friendly and benevolent atmosphere in its classrooms. Our learners are continuously supported, accompanied and guided in their project.

3 **An unforgettable experience.** Coming to France to learn French is an engaging process and the least we can do is to make sure that this experience is as rich as possible for our learners. LSF offers them a deep immersion in French culture with all its richness. Coming to LSF Montpellier is not only about improving your French, it is also about living a rich experience of new friendships, discoveries, encounters for life, and moments of relaxation. The pleasures of life in restaurants or cafés, sporting moments and of course cultural and artistic discoveries.

Welcome to France, welcome to Montpellier.

Merging of LSF and IEF schools

LSF Montpellier and Institut Européen de Français (IEF) become one!

The two best French as a foreign language schools in Montpellier are joining forces to give their students the best experience.

Located in the historic centre of Montpellier, and both enjoying the best reputation, LSF Montpellier and Institut Européen de Français have decided to join forces and form a single school with the objective of offering the best in French language learning and immersion in French culture.

Recognized for their quality (4.9/5 / 5/5 and 5/5 on Facebook and Google), and with the best certifications (Qualité FLE and Qualiopi), both LSF and IEF schools put the quality of their offer at the heart of their raison to be.

Quality of teaching with highly qualified and experienced teachers. Educational quality with tools that are at the cutting edge of what exists today. Quality of the stay with carefully selected accommodation and a wide range of high-quality recreational, artistic, cultural and sporting activities.

Quality of learning and life experience are the two pillars of the LSF / IEF value proposition.

The team looks forward to welcoming you and to ensuring that you have an incredible learning experience and immersion in our French culture of which we are so proud.

Our school and our commitments

● QUALITY ABOVE ALL

Located in Montpellier, in the South of France, LSF has been teaching French for almost 25 years and has the best reputation in the region. It has been awarded the «QUALITÉ FLE» label with a maximum score of 15/15. It is also QUALIOPF certified. Located in the heart of the historic centre, with more than 12 air-conditioned classrooms, the school welcomes no less than 3,000 students every year.

LSF Montpellier stands out by the quality of its teaching and by the great mix of its students: a mix of objectives (academic or university needs, professional motivations or simply for pleasure), levels (from complete beginner to C2 level), ages (from 16 to 85 years old) and cultures (we welcome students from more than 80 different countries every year).

LSF Montpellier has an extraordinary atmosphere and welcoming living spaces: garden, library and computer room.

In addition to a very high standard teaching programme, LSF Montpellier provides its students with complete accommodation solutions, giving priority to an immersive stay with a host family. It is also possible to stay in a student residence, a private flat or a shared flat.

Finally, because we offer our students a rich and global

experience, a varied programme of activities is proposed each week: sports, arts & culture, gastronomy.

At LSF/IEF, French is learnt in the classroom but also in moments of relaxation.

● ACCESSIBILITY FOR ALL

LSF / IEF is committed to welcoming all its students, including those with any kind of disability. The premises are adapted to wheelchairs and are equipped with a lift.

Our teacher Judith will prepare your arrival and will accompany you throughout your stay.

● INNOVATIVE METHODOLOGY

Our teaching is based on the main principles of the action-oriented approach and our pedagogical progression rigorously respects the levels defined by the CEFR (from level A1 to level C2). In order to meet the needs of our students and the evolution of the language sector, we have developed an innovative learning method: **Blended & Collaborative Learning**. All of our courses, whether in school or online, for group or private tuition, combine face-to-face learning with a teacher and the systematic use of the e-learning platform we have developed. We have added a collaborative dimension to all of this with tools that encourage interaction between learners, but also between learners and teachers.

We constantly assist our students in their learning and we enable them to be part of a community of French-speaking and Francophile students.

● HIGHLY EXPERIENCED TEACHERS

All our teachers are native speakers of French and have a university degree in FLE (French as a Foreign Language). They all have extensive experience in LSF / IEF and in teaching FLE in general.

Pedagogical innovation is a priority for us, which is why our teachers regularly follow training courses to guarantee a level of excellence at LSF/IEF.

● HIGHLY EFFICIENT TOOLS

The LSF/IEF pedagogical team develops its own pedagogical content to offer original, authentic and up-to-date courses.

Thus you will have access to our «e-Learning Platform» throughout your training.

You will have access to course summaries at all levels, self-correcting exercises, grammar and vocabulary sheets, phonetics modules as well as oral and written comprehension.

You will also receive the “Carnet de route de LSF / IEF” which is both a real course manual and a guide to Montpellier with advice and good addresses to make the most of your stay (restaurants, culture, sports, nature...).

Education and pedagogy

● FREE WORKSHOPS

Every week we organize two free 45-minute workshops for all our students.

- ✓ *We offer a varied program that changes every week so that students can deepen their linguistic and cultural knowledge.*
- ✓ *Our workshops are very popular: It is a moment of relaxation where you can continue to learn without having to worry about anything else and which brings a little extra to your daily life: phonetics, grammar in context, conjugation games, debates, discovering France, the media, working in France, creative writing, idiomatic expressions, French songs, comic strips, video games, quizzes, colloquial French, board games, cooking...*
- ✓ *These workshops are also an opportunity to meet students from other levels and to discover all the cultures present at the school.*
- ✓ *Our teachers are always eager to propose new workshops at the request of the students according to their desires and needs.*
- ✓ *These workshops are optional, so students attend the workshops of their choice.*

Education and pedagogy

PERMANENT COACHING

If you encounter a difficulty with a concept seen in class, you can participate in the tutoring provided each week by a teacher from the school, free of charge.

Throughout the duration of your training, our teaching team will answer all the questions you ask on the platform. The aim is to provide you with pedagogical assistance after class by offering you corrections, explanations and personalised advice.

AN INDIVIDUALISED COURSE PLAN

Before starting your course, you will take a written and oral test which will enable us to place you in a class adapted to your level. We make sure that the courses offered meet your level, expectations and needs.

The teaching team is always ready to listen to you and will suggest remedial solutions if necessary (change of class, change of level, personalised help or tutoring).

To make students' daily life easier, LSF has created a **mobile application** available on smartphone allowing students to consult their class timetable and access the main information related to their stay.

Located in the South of France, Montpellier enjoys a Mediterranean climate and is one of the sunniest cities in France with 300 days of sunshine per year! Parks, cycle paths, everything is done to allow enjoying it. The city is adorned with green culture and many actions in favour of ecology and nature preservation are implemented on a daily basis. The little extra? A botanic garden dating from the 16th century, free of charge and open all year round!

- **A STUDENT AND DYNAMIC CITY**

Known for its numerous universities, Montpellier is a young city! 30% of the population are students and the best known universities are those of medicine and law. And Montpellier is a busy city! Festivals, concerts, shows, there is always something to do or to discover. Our flagship events? The FISE (extreme sports), the Estivales and Hivernales, among many other key events.

- **A HUMAN-SIZED SCIENTIFIC CITY**

The science and medical schools are world-wide famous. Montpellier stands out for the quality of its research and its researchers. But not only that! It is also an average city of around 300,000 inhabitants, known for being a «human-sized» city. Neither too big nor too small, it is easy to find your way around but above all it is easy to meet people.

- **A HISTORICAL CITY, BETWEEN SEA AND MOUNTAINS**

Montpellier is a city full of history. Created in the 10th century, the historic centre of the city mixes different eras and takes us on a journey through time. Montpellier has the advantage of being located at equal distance from the beach and the mountains. The little extra? Bicycle paths that make it easy to get around!

- **A GOURMET AND COSMOPOLITAN CITY**

With its bars, restaurants and cafés, Montpellier is a city where the Mediterranean culture and gastronomy are in the spotlight. What could be better than enjoying a good meal on a terrace! A little over a year ago I attended LSF Montpellier. It was an all-around amazing experience! I would HIGHLY recommend this course to anyone that is looking for an effective French language school!

The staff is remarkable in their diligence and are willing to assist with anything they possibly can. The teachers are engaging and provide an amazing atmosphere for learning French! The efficacy of the teaching at LSF is unparalleled to any other language school I have attended! After completing my 8-week course at LSF, I have been able to return to school and pursue a major in the French language.

I have never regretted my decision in choosing LSF. They go above and beyond in creating an immersive experience. The extracurricular activities that the school hosts are extraordinary and create a real sense of community for everyone attending, regardless of their country of origin. 10/10.

Coming here has really been a transformative experience for me. I have always wanted to learn French and after weeks of research and recommendations I choose LSF. And I couldn't be happier. In only 2 months I have learned more French than I have in 3 years of highschool. The teachers are super and really care about their students. They also have an online platform, which I wasn't able to find at other schools. It has homework, videos and interactive pages that provides a more in-depth look at the concepts and allow you to practice more. I have found lifelong friends who share my love and passion for the language and I have fallen in love with the city that will always hold a place in my heart. If you are looking look no further, this is the place for you!

I really enjoyed my French course in Montpellier. I am studying in this school for 3rd time and I can say that during those 4 weeks my French level really increased. I wasn't studying only in class. We had a degustation of cheese and we went to a macaroon factory. In the next year I would really like to go there again.

I spent 10 weeks in Montpellier and studied at LSF. I had a great time and one of the best experiences of my life. The communication before my trip was very easy and helpful. The teachers, the excursions, the atmosphere and the team in the office are great. In addition i loved the online learning tool which is very efficient and inclusive. Montpellier is a sunny and mediterranean city. There are plenty of bars, restaurants and other things to do. You will love it! I will continue my studies at LSF in the future.
