

French E-learning platform

Progress in French from your
home or office

#KeepLearningFrench

**More than 400
modules**

**Unlimited access
to the platform**

**6 levels available
(A1 to C2)**

Our e-learning platform allows you to learn French or to deepen your knowledge by working independently on different skills: grammar exercises and lessons, vocabulary, conjugation, written production, written and oral comprehension and phonetics.

You take our online placement test, which consists of exercises to test conjugation, grammar, language structure and a written exercise where you are asked to introduce yourself and explain your motivations. At the end of this test, there is a needs sheet for you to tell us your expectations and needs.

You also have access to our catalogue of more than 400 à la carte training modules to allow you

to choose what you want to progress on.

LSF Montpellier's pedagogical team answer all the questions you might have and ask on the platform and correct all the published written contributions. The objective is to provide you with pedagogical assistance and continuous follow-up and to enable you to advance in your writing skills by offering personalized correction and advice.

On our platform, you also have access to our groups which allow you to follow current events in French and to discover French and franco-phone cultures: reading tips, selection of radio and songs in French, links to games to work in French, cooking recipes, etc.

The 6 levels of the CEFR* are available on the platform

A1: 6 Course Modules

A2: 9 Course Modules

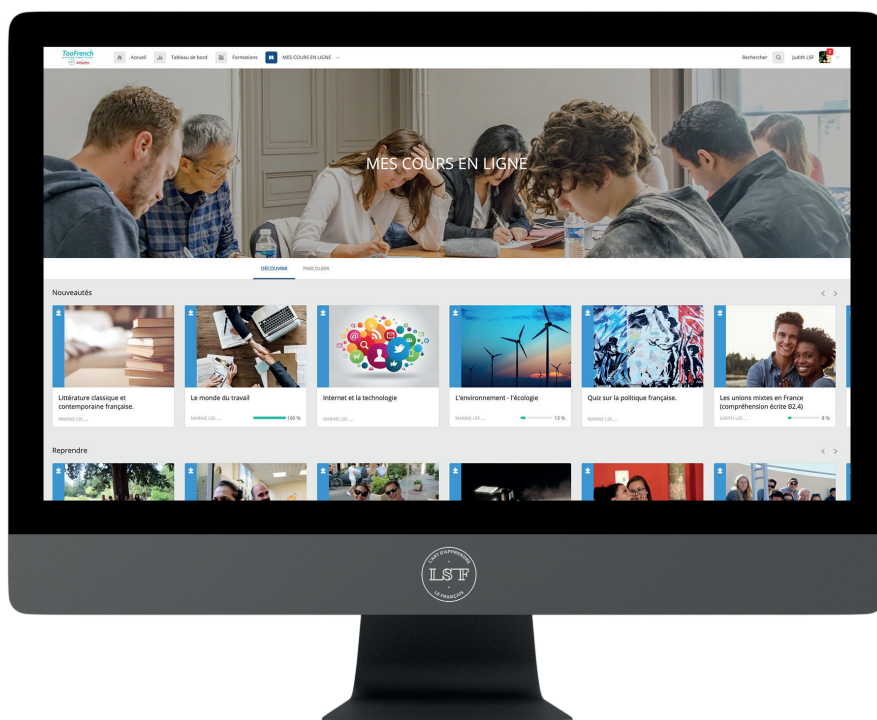

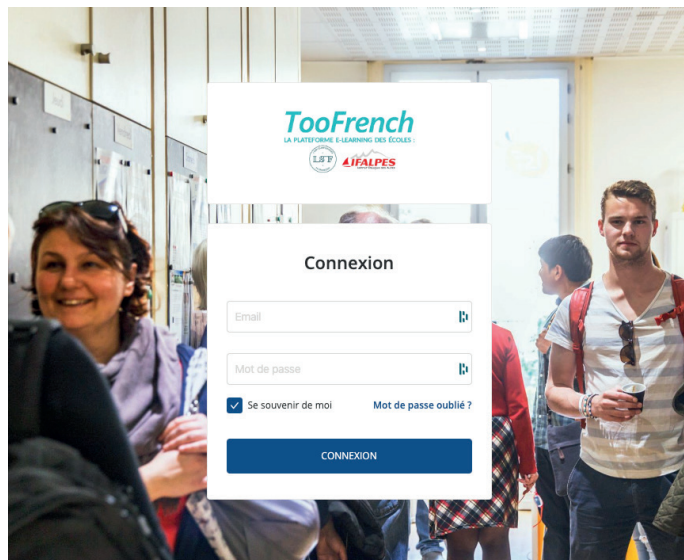

B1: 9 Course Modules

B2: 12 Course Modules

C1-C2: 12 Course Modules

You also have access to our catalogue of more than 400 à la carte training modules to allow you to choose what you want to progress on.
